Data Collection and Preprocessing Phase

Date	4 February 2026
Team ID	LTVIP2026TMIDS35952
Project Title	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	4 Marks

Data Quality Report Template

Data Source	Data Quality Issue	Severity	Resolution Plan
Transformed Housing Data 2	• Missing values in key attributes. • Duplicate records. • Outliers affecting analysis. • Incorrect data types or formats. • Inconsistent data entry.	Moderate	• Filling missing values using mean/median/mode. • Removing or correcting duplicates. • Normalizing or transforming data types. • Handling outliers using statistical techniques.
Transformed Housing Data 2	Duplicate records found (11 instances).	Moderate	Remove duplicate records using data cleaning techniques.
Transformed Housing Data 2	No of Times Visited' column contains only zero values, which may indicate missing or incorrect data.	High	Verify data source or remove column if it lacks meaningful information.

Transformed Housing Data 2	Zipcode representation is in multiple binary columns instead of a single categorical variable.	Moderate	Convert multiple binary columns into a single categorical 'Zipcode Group' column for better efficiency.
Transformed Housing Data 2	Potential outliers in 'Sale Price' and 'Lot Area' columns.	High	Use statistical methods to identify and handle outliers (e.g., IQR method).
